

## Flowchart

February 2017

Developing  
managers to  
manage *sustainable*  
employee engagement,  
health and well-being

# How to use these resources in your organisation

This flow chart suggests the order in which you might like to use the resources we've produced from the research to develop your own management development approach that supports employee engagement and well-being.

We advise starting with the maturity model, as this will enable you to identify which of the resources

are most applicable to your organisation needs and context. You may not need to use all of the resources as they are designed for organisations at different stages, from those starting out on developing a management development approach to support engagement and well-being, to those who already have one in place but want to enhance its effectiveness.
