Putting the human in learning

Podcasts

Social media

Learning platforms

Artificial intelligence

Focus on me

Podcasts

Curious - Search for a podcast from outside your everyday activities that sparks your curiosity, rather than something you are 'obliged to learn'

Learning – what has inspired from a podcast that you that you can apply in your context?

Connecting – Share an idea you have gained from a podcast with a colleague, emphasising *why* the connection was there for you

Podcast resources

[A rich deep dive into periods of history that impact on why we do stuff today!](#)

Search for comedy podcasts – great for lightening your mood – who doesn't like a good laugh!

[How to Double Your Reading Speed](#)

Social media

Curious – Using the hashtag symbol and a word or words of your choice, search for a community group that shares your interest on a social media platform eg #Coaching or #MusicAtWork

Learning – Take time to work out the unique differences of different social media channels and what they could add to your own learning

Connecting – Share something you have learned on a social media platform either on that platform or in real life!

Social media links

[Twitter.com](https://twitter.com)

[Instagram.com](https://www.instagram.com)

[Facebook.com](https://www.facebook.com)

[Strava.com](https://www.strava.com)

[Runkeeper.com](https://www.runkeeper.com)

Learning platforms

Curious - Search your learning platform for a topic outside of your day to day habits

Learning – create a pathway to gain more insights to your chosen objectives

Connecting – Share an insight gained with a colleague profile to connect and learn with others

Suggested platforms

[Best 8 online learning platforms 2021 to jumpstart your careers](#)

[Three reasons why the LXP is the future of organisational learning](#)

[MOOC.org is one example, but there are many more:](#)
Coursera, Skillshare, Udemy, Khan Academy, Edx, Pluralsight, Future Learn, Moodle, Udacity, Bit Degree, LinkedIn Learning, Masterclass, DataCamp, Thinkific, Learn Worlds, Teachable, Kajabi, Google classroom, Podia, WizIQ, Academy of Mine

Artificial intelligence

Curious – What is AI? Why does it seem so elusive? Where do you even start?

Consider human behaviour and your most frequently used application (Spotify, Netflix, Google) - how does it know what we're looking for? How does it predict our behaviour?

Learning – Research the current uses of AI. How many of these are everyday applications? How many are work related?

Connecting – Consider how you could use AI in your organisation, and share your ideas with a colleague - how can you embrace AI and inspire others?

How can I start using AI?

Focus on me

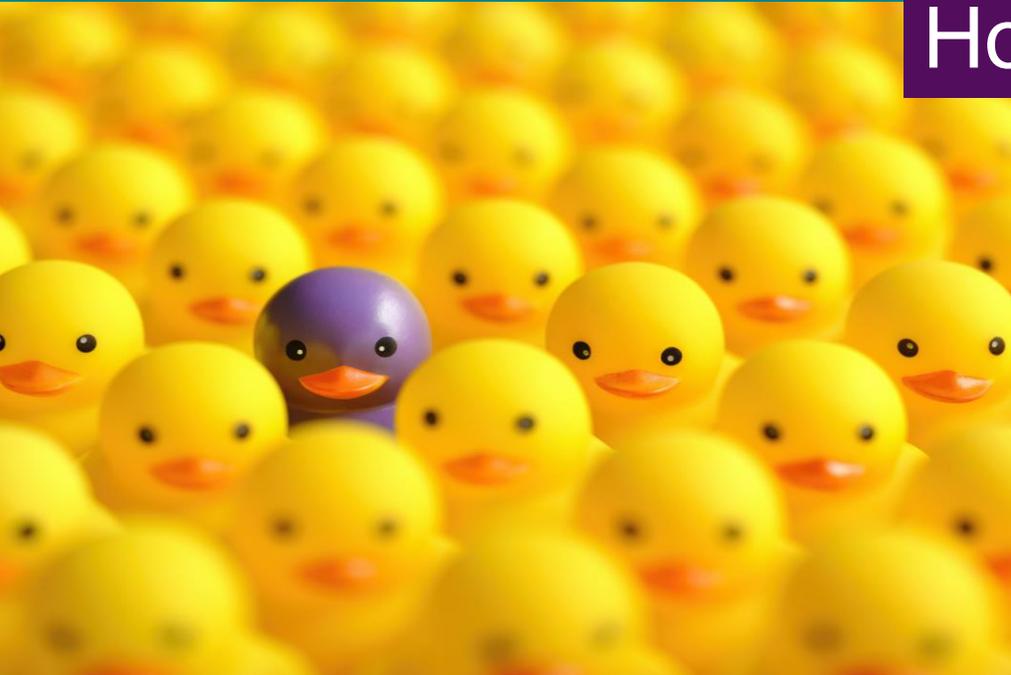

Curious - Where do you want to take your development?

Learning – How will you act on your insights from learning at work week?

Connecting - Share an idea you have not acted on with a colleague in order to progress it further

How can I focus on me?

Block time in your daily routine for you, some online calendars will automatically book time in for learning or focus time

Take time to exercise, be it a walk, jog, run, swim, cycle ride, the focus on another activity helps with focus on you

Take up reflection through mind-mapping, sketch-noting, journal writing or dictating to the voice recorder on your smart phone

If you already have some great examples on how you focus on yourself, you could share these with others. You could add them on social media with the hashtags **#CIPD #LAWW2021 #FocusOnMe**
